PROFESSIONAL SUMMARY

DevOps Engineer with hands-on experience designing and automating cloud infrastructure on AWS using Terraform, Bash, and Linux. Skilled in version control workflows, CI/CD tooling, and network configuration including VPCs, security groups, and NAT gateways. Combines technical depth in infrastructure automation with strong written communication and the ability to deliver clearly documented, collaborative solutions.

EDUCATION

Adekunle Ajasin University

BSc, International Relations.

Damata Computer College

Diploma in Computer Studies.

EXPERIENCE

Writer and Content Editor

2024 – Present

Freelance

- Produce and edit technical and analytical content for diverse audiences, ensuring clarity and accuracy.
- Apply fact-checking, proofreading, and content optimization to improve overall quality and readability.

Volunteer Graduate Tutor and Peer Advisor

2024 – 2025

NYSC

- Facilitated tutorials and mentorship sessions to strengthen student understanding across academic subjects.
- Advised students on academic planning, personal development, and career growth strategies.

Computer Operator and Office Tools Specialist

2016 – 2017

- Organized and maintained records using Microsoft Excel and Word to support daily office operations.
- Delivered first-level technical support and performed routine system maintenance.

PROJECTS

Cloud Infrastructure Automation

2026 – 2026

Cloud Infrastructure Automation Specialist

- Engineered AWS infrastructure using Terraform to automate provisioning and reduce manual deployment effort.
- Designed a custom VPC with public and private subnets across multiple availability zones for high-availability architecture.
- Configured security groups, NAT gateways, and route tables to enforce secure, production-ready network operations.

Systems and Version Control Labs

2025 – 2026

Systems and Version Control Labs

- Built Bash scripts to automate routine Linux administration and system maintenance tasks.
- Managed source code and team collaboration workflows using Git and GitHub, following version control best practices.
- Diagnosed and resolved Linux, networking, and infrastructure issues across lab environments.

CERTIFICATIONS

- IOE-Microsoft AI Fluency Training (Course 5)
- Google AI Professional Certificate

SKILLS

DevOps and Cloud: Terraform, Docker, GitHub Actions, AWS (VPC, Subnets, Security Groups, NAT Gateway, Route Tables), Infrastructure as Code (IaC)

Systems and Automation: Linux, Bash Scripting, Git, GitHub

Data and AI: Python, Pandas, NumPy, Jupyter Notebook, Prompt Engineering, Data Analysis, Microsoft Excel

Professional Skills: Technical Writing, Proofreading, Fact-Checking, Team Collaboration, Leadership
